The Office Action dated May 3, 2000, has been received and carefully reviewed. Please amend the above-identified patent application as indicated below.

In the claims:

- 1 Sub C 1. (Amended.) A support and insulating member for a corner
2 post made of thin sheet material and used to enclose one corner of an external
3 wall of a building, the corner post being spaced from the external wall to define
4 a longitudinally extending hollow space therebetween, said support and
5 insulating member comprising:
6 a single member having first and second longitudinally extending
7 portions, the first portion lying in a first plane angularly disposed with respect
8 to the second portion lying in a second plane, wherein said first and second
9 longitudinally extending portions have lengths adapted for corresponding to the
10 length of the corner of the building and wherein said single member defines a
